

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Craig and Lisa Steffen
DOCKET NO.: 04-23555.001-R-1
PARCEL NO.: 04-20-206-003-0000

The parties of record before the Property Tax Appeal Board are Craig and Lisa Steffen, the appellants, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is a 32-year old, two-story frame and masonry dwelling containing 2,359 square feet of living area with a partial, finished basement, central air conditioning, a fireplace, and a two-car garage.

The appellants submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellants submitted a grid analysis detailing four suggested comparable properties. On the appellants' map, the comparables are located approximately one-half mile from the subject. The comparables are two-story frame and masonry dwellings that are 33 to 38 years old. Three of the comparables have partial basements, and one has an unfinished basement. Two comparables have central air conditioning and a fireplace. Photographs supplied by the appellant indicate that each comparable has a garage. The dwellings have living areas that contain 2,668 to 2,872 square feet, and their improvement assessments range from \$11.86 to \$12.90 per square foot. The subject property has an improvement assessment of \$16.41 per square foot. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	10,410
IMPR.:	\$	38,716
TOTAL:	\$	49,126

Subject only to the State multiplier as applicable.

suggested comparable properties that are located in close proximity of the subject. The comparables are two-story frame and masonry dwellings that are 32 years old. Three comparables have partial, unfinished basements, and one does not have a basement. Each comparable has central air conditioning, a fireplace, and a two-car garage. The dwellings have living areas that contain 1,839 or 1,841 square feet, and improvement assessments that range from \$18.29 to \$18.72 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

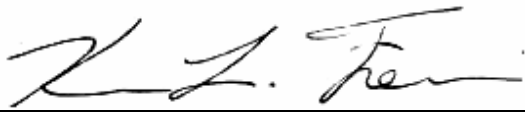

Both parties presented assessment data on a total of eight equity comparables. The appellants' comparables differed from the subject in location and size. The board of review's comparables also differed in size from the subject, but they were similar to the subject in age, location, and other physical characteristics. All comparables had improvement assessments ranging from \$11.86 to \$18.72 per square foot. The board of review's comparables that were most similar to the subject in age, location and amenities had improvement assessments of \$18.29 to \$18.72 per square foot of living area. Giving most weight to the board of review's comparables, the subject's \$16.41 per square foot improvement assessment is supported after considering differences in physical attributes.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
